— Nevada Strategic Highway Safety Plan 2026-2030

▪ Five Focus Areas:

- **Safer Roads:** Infrastructure designed to reduce crash severity.
- **Safer Speeds:** Managing speeds to prioritize human life.
- **Safer People:** Promoting safe behavior and protecting all road users.
- **Safer Vehicles:** Leveraging technology like automated emergency braking.
- **Post-Crash Care:** Enhancing EMS and survivability after a crash.

- **Southern Nevada Impact:** Includes specific strategies for the Vulnerable Road User (VRU) assessment and integration with the RTC's "Let's Go Safely" Safety Action Plan.

- **2030 Performance Targets:** Aiming for a **35% reduction** in fatalities and serious injuries by 2035, with intermediate targets set for 2030
