Items 2 through 7 are items for possible action. Items 1, 8, and 9 are discussion items and no action can be taken. Please be advised that the Regional Project Coordination Committee has the discretion to take items on the agenda out of order, combine two or more agenda items for consideration, remove an item from the agenda or delay discussion relating to an item on the agenda any time.

1. **CONDUCT A COMMENT PERIOD FOR CITIZENS PARTICIPATION**: No action can be taken on any matter discussed under this item, although the Committee can direct that it be placed on a future agenda.

2. **APPROVAL OF MINUTES**: Meeting of August 15, 2018 (FOR POSSIBLE ACTION)

3. **RECEIVE AN UPDATED LIST OF ENTITY AND UTILITY COMPANY CONTACT PERSONS AND DIRECT STAFF ACCORDINGLY** (FOR POSSIBLE ACTION)

4. **RECEIVE APPROVED PLANNED PROJECTS FROM MEMBER ENTITIES AND UTILITY COMPANIES** (FOR POSSIBLE ACTION)

5. **DISCUSS PROJECTS THAT ARE STARTING THE ENGINEERING DESIGN PHASE OF PROJECT DELIVERY** (FOR POSSIBLE ACTION)

6. **DISCUSS PROJECTS THAT WILL SOON BE STARTING THE CONSTRUCTION PHASE OF PROJECT DELIVERY** (FOR POSSIBLE ACTION)

7. **RECEIVE A REPORT FROM THE CONE MANAGEMENT WORKING GROUP** (FOR POSSIBLE ACTION)

8. **DISCUSS TOPICS OF INTEREST**

9. **CONDUCT A COMMENT PERIOD FOR CITIZENS PARTICIPATION**: No action can be taken on any matter discussed under this item, although the Committee can direct that it be placed on a future agenda.

During the initial Citizens Participation, any citizen in the audience may address the Committee on an item featured on the agenda. During the final Citizens Participation, any citizens in the audience may address the Committee on matters within the Committee’s jurisdiction, but not necessarily featured on the agenda. No vote can be taken on a matter not listed on the posted agenda; however, the Committee can direct that the matter be placed on a future agenda.

Each citizen must be recognized by the Chair. The citizen is then asked to approach the microphone at the podium, to state his or her name, and to spell the last name for the record. The Chair may limit remarks to three minutes’ duration, if such remarks are disruptive to the meeting or not within the Committee’s jurisdiction.

The Regional Transportation Commission keeps the official record of all proceedings of the meeting. In order to maintain a complete and accurate record, copies of documents used during presentations should be submitted to the Recording Secretary.

The Regional Transportation Commission appreciates the time citizens devote to be involved in this important process.

In compliance with Nevada Revised Statute 241.035(4), the Regional Transportation Commission of Southern Nevada shall create an audio and/or video recording of the meeting and retain such recording(s) for the required period of time.
The Regional Transportation Commission Meeting Room and Conference Room are accessible to the disabled. Assistive listening devices are available for the hearing impaired. A sign language interpreter for the deaf will be made available with a forty-eight hour advance request to the Regional Transportation Commission offices. Phone: 702-676-1500 TDD: 702-676-1834

Any action taken on these items is advisory to the Regional Transportation Commission.

Subject: Initial Citizens Participation

Petitioner: Tina Quigley, General Manager
Regional Transportation Commission of Southern Nevada

Recommendation by Petitioner:
That the Regional Transportation Commission of Southern Nevada Regional Project Coordination Committee conduct a comment period for citizens participation

Goal: Enhance public awareness and support of the Regional Transportation System

Fiscal Impact:
None

Background:
In accordance with State of Nevada Open Meeting Law, the Regional Transportation Commission of Southern Nevada Regional Project Coordination Committee (RPCC) shall invite interested persons to make comments. For the initial Citizens Participation, the public should address items on the current agenda. For the final Citizens Participation, interested persons may make comments on matters within the Regional Project Coordination Committee's jurisdiction, but not necessarily on the current agenda.

No action can be taken on any matter discussed under this item, although the RPCC can direct that it be placed on a future agenda.

Respectfully submitted,

John R. Penuelas, Jr., P.E.
Director of Engineering Services - Streets and Highways

<td>Mr. John Peñuelas, Director of Engineering Services – Streets and Highways for the Regional Transportation Commission of Southern Nevada (RTC), informed the Regional Project Coordination Committee (RPCC or Committee) that this was the second RPCC agenda featuring the new standing items. These items were created with the aim of soliciting information regarding the Committee members’ capital plans and the data would be reflected on the RPCC GIS Project Map (RPCC Project Map). Mr. Joe Damiani, RTC Manager of Engineering, added that the RPCC member entities should focus upon capital plan projects for the next three years. He stated that the members could provide this information in written lists, in addition to presentations, and RTC staff would incorporate it into the RPCC Project Map. Mr. Shawn Arnold, NV Energy, mentioned that NV Energy representatives could only provide information for officially approved projects. Acknowledging Mr. Arnold’s comment, Mr. Damiani responded that Committee members had the discretion to supply only information that had been authorized by their respective agency or utility company to share as public information.</td>

Item:
6. DISCUSS PROJECTS THAT ARE STARTING THE ENGINEERING DESIGN PHASE OF PROJECT DELIVERY (FOR POSSIBLE ACTION)

Comments:
Mr. John Peñuelas, Director of Engineering Services – Streets and Highways for the Regional Transportation Commission of Southern Nevada (RTC), explained that this item afforded the opportunity to review projects that have transitioned from the planning stage to the design phase. RTC staff believed that related discussions could facilitate project coordination.

Mr. Joe Damiani, RTC Manager of Engineering, encouraged the Regional Project Coordination Committee (RPCC or Committee) members to submit information about these types of projects to the RTC and agency personnel would update the RPCC GIS Project Map (RPCC Map) prior to the meeting. He went on to point out that a list of projects had been attached to this item as backup for this particular agenda. However, in the future, RTC staff members were planning to post project lists on the RTC Streets and Highways webpage on the RTC website in order to provide more up-to-date information. Mr. Damiani further stated that discussion related to this agenda item would also involve roadway projects that had been approved at previous RTC Board of Commissioners meetings.

Mr. Shawn Arnold, NV Energy, asked for the RTC facilitators to clarify color designations on the RPCC GIS Project Map. Mr. Damiani detailed that projects that had recently moved from the design phase would be designated in light blue. He continued, explaining that after the data for the next month had been added to the RPCC Map, the former list of projects would appear in dark blue. Mr. Damiani shared that RTC staff members had also been collecting information on private project development that was starting the design phase. Like the local government entity projects, private sector work that had recently moved from the design phase would initially be designated in light blue on the RPCC Map. Once data related to private projects was posted in the following month, the aforementioned work would be outlined in dark blue on the map.

Mr. Arnold then inquired as to how projects under construction would appear on the RPCC Map. Mr. Peñuelas responded that construction projects would be discussed in the next agenda item.

Mr. Arnold pointed out that it would be helpful to know about projects that would materialize in the near-term. Mr. Damiani agreed and said that RTC staff was working on such a feature.

Chair Diana Hubbard, Southwest Gas Corporation (SWG), mentioned that SWG staff had downloaded some projects on the RPCC Map. She highlighted the work being done in the vicinity of the Raider’s Stadium site. She also noted that a pipeline reinforcement project would be carried out down Valley View Boulevard, with construction expected to begin in January 2019. Next, Chair Hubbard informed the RPCC about a project in the areas of Hacienda Avenue and Valley View Boulevard. This project would likely start construction in the third quarter of 2019. She stated that she had submitted information about the above-mentioned matters to Mr. Peñuelas for inclusion on the RPCC Map.

Next, Mr. Shawn Arnold, asked the RTC Facilitators for the RTC point of contact regarding receipt of project information for the RPCC Map. Mr. Peñuelas suggested sending data to Ms. Julia Uravich, RTC Project Engineer. Vice-Chair Scott Jarvis, City of Henderson (Henderson), requested that Mr. Todd Gurnee, RTC GIS Analyst, serve as the primary point of contact. Vice-Chair Jarvis explained that sending information directly to Mr. Gurnee might simplify the process. Mr. Damiani and Mr. Jarvis briefly discussed the logistics of how data should be sent and the data set types that could be most easily integrated into the RPCC Map. They noted that some Committee members had
experienced challenges with automatic uploads of data due to different information formats. Mr. Peñuelas acknowledged this situation and, as such, thought it may be more convenient for members to directly report project information to RTC staff who could then format the data for the RPCC Map and upload it. The Committee commented that the RPCC Map had proven helpful and the members still needed to supply information.

Next, Mr. Peñuelas directed the members’ attention to the RPCC Map and asked for their feedback on how information was displayed. He explained that the RTC wanted to streamline information, but still provide sufficient data for project coordination. In response, Vice-Chair Jarvis suggested adapting the estimated “project design start date” field and replacing it with a “seasonal” data field. Mr. Damiani agreed with this proposal of making a data field that reflected start times in quarters or seasons. After that comment, he asked the Committee to start thinking about how the RTC staff could further refine the RPCC Map data fields to facilitate project coordination.

In the opinion of Mr. Mark Sorenson, City of Las Vegas, the RPCC Map provided a broader view of the projects in the Las Vegas Valley than what could be provided by way of printed information. That being said, he noted that either method presented challenges and that the Committee members should be thinking of ways to address the issues related to these means of communicating about their projects. Mr. Peñuelas concluded the discussion, relating that RTC personnel would continue to collect and update data and study ways to refine the RPCC Map.

**Item:**
7. DISCUSS PROJECTS THAT WILL SOON BE STARTING THE CONSTRUCTION PHASE OF PROJECT DELIVERY (FOR POSSIBLE ACTION)

**Comments:**
Both Mr. Joe Damiani, Manager of Engineering, Regional Transportation Commission of Southern Nevada (RTC) and Mr. John Peñuelas, RTC Director of Engineering Services – Streets and Highways, demonstrated how to navigate the pending construction projects section of the Regional Project Coordination Committee (RPCC) GIS Project Map (RPCC Map). Mr. Damiani explained that the work featured in this section concerned funded projects that had not yet been advertised. This designation was intended to alert Southern Nevada government agencies and the Cone Management Working Group about work that would soon commence construction. Ms. Cindy Shackelford, Kern River Gas Transmission Company, asked for clarification on whether these particular projects were already past the bid phase. Mr. Damiani responded that these projects were in the pre-bid phase. He elaborated that this work had secured funding with finalized documentation.

Next, Mr. Peñuelas displayed projects that were highlighted in red on the RPCC Map. He explained that the red color indicated that construction activity was underway. Mr. Damiani noted that the designation should facilitate tracking of the movement of projects from pre-construction to the construction phase.

Vice-Chair Scott Jarvis, City of Henderson, asked how project completion would be depicted on the RPCC Map. Mr. Peñuelas responded that once a notice of substantial completion for a project was issued, Mr. Chris Schwarz, RTC Regional Traffic Control Coordinator, would review the matter and, if appropriate, remove the project from the RPCC Map. Mr. Penuelas explained that a review would
be necessary in instances when a project is in the substantial completion phase, but construction activity was ongoing. In such a scenario, Mr. Schwarz would have to determine the appropriate time to remove the project from the RPCC Map. Mr. Damiani added that the Committee members would also have the opportunity to provide completion updates and request changes at the RPCC meetings.

Ms. Shackelford asked if requiring the use of a password to the RPCC Map would be possible since she was aware of some concerns about posting information. Mr. Peñuelas commented that the inclusion of a password feature had been previously discussed. He went on to say that since RPCC was a public meeting, all information, including that concerning the RPCC Map, discussed and presented in the forum was public in nature. Therefore, the RPCC Map had to be accessible to the public and could not be password-protected. Mr. Peñuelas mentioned the possibility of adding a password-protected layer, but this would be for internal use only and could neither be discussed nor displayed at the public RPCC meetings.

Lastly, Chair Diana Hubbard, Southwest Gas Corporation (SWG), requested that the SWG projects at Buffalo Drive and Gowan Road, and at Craig Road and Tenaya Way be updated as complete and removed from the RPCC Map.

**Motion:**
A motion was not necessary.

**Vote/Summary:**
A vote was not taken.

**Item:**
8. RECEIVE A REPORT FROM THE CONE MANAGEMENT WORKING GROUP (FOR POSSIBLE ACTION)

**Comments:**
Mr. John Peñuelas, Director of Engineering Services – Streets and Highways for the Regional Transportation Commission of Southern Nevada (RTC), reported that a workshop focusing on the use of Intelligent Transportation Systems (ITS) in construction work zones had been held at the most recent Cone Management Working Group (CMWG) meeting. He noted that Kimley-Horn and Associates, the consultant for the ITS work zone project, had organized this workshop in collaboration with the CMWG members. Mr. Peñuelas elaborated that the workshop participants had identified typical temporary traffic control devices and possible locations for the installation of data sensors and monitors that could gather traffic information that might be of interest to the permitting agencies or the traveling public. The RTC Director of Engineering Services reported that the CMWG had also discussed defining the parameters of the data types that should be collected. Mr. Peñuelas noted that the CMWG would continue this discussion at the next meeting that was scheduled for early September 2018. He went on to say that another meeting concerning the procurement of monitoring equipment would be scheduled in late September 2018. This gathering would be open to CMWG members and vendors.

The RTC Director of Engineering Services talked about the planned implementation process for the construction work zone ITS project. The aim was to install ITS devices in select construction work zones by the end of 2018 or early 2019. The CMWG would review and test data collected by this technology. This information would serve as a resource for the development of a specification for ITS in construction work zones. Mr. Peñuelas followed by reminding the Regional Project Coordination Committee that the goal of the first phase of the work zone ITS project is to develop a specification that the RTC could incorporate into the conditions of approval for RTC-funded projects. He added that
ITS technology could benefit the public by providing real-time information on the status of construction work zones and how to better navigate them.

**Item:**
9. DISCUSS TOPICS OF INTEREST

**Comments:**
Ms. Tahmineh Pennington, Southern Nevada Water Authority (SNWA), asked if other Regional Project Coordination Committee (RPCC) members had experienced challenges in obtaining as-buils and redline documents from CenturyLink. She shared that SNWA had pending documentation related to five projects and had not yet received a response from the CenturyLink point of contact. Other RPCC members remarked that they had faced the same situation. Mr. Shawn Arnold, NV Energy, recommended that SNWA personnel request a meeting with the appropriate CenturyLink staff. He stated that this approach had worked for him in the past. Mr. Mark Sorensen, City of Las Vegas, said that he would provide information to Ms. Pennington regarding his CenturyLink regional point of contact.

**Motion:**

**SUBJECT:** REPORT FROM CONE MANAGEMENT WORKING GROUP

**PETITIONER:** TINA QUIGLEY, GENERAL MANAGER
REGIONAL TRANSPORTATION COMMISSION OF SOUTHERN NEVADA

**RECOMMENDATION BY PETITIONER:**
THAT THE REGIONAL TRANSPORTATION COMMISSION OF SOUTHERN NEVADA
REGIONAL PROJECT COORDINATION COMMITTEE RECEIVE A REPORT FROM THE
CONE MANAGEMENT WORKING GROUP (FOR POSSIBLE ACTION)

**GOAL:** MAINTAIN AND IMPROVE TRANSPORTATION SYSTEM INFRASTRUCTURE

---

**FISCAL IMPACT:**
Not determined

**BACKGROUND:**
The Cone Management Working Group (CMWG) was formed to provide a forum for experts from
government and industry to explore new procedures, processes, and ideas to improve work zone
management and temporary traffic control on active roadway construction projects. The CMWG report
relates the group's discussions, insights, and activities to the Regional Project Coordination Committee.
